

SUMMER PLANS? VACATION LOOKS DIFFERENT THIS YEAR WITH STAYCATIONS

BY DENNA GARDNER

Everyone is seeing a trend of staying a little closer to home this year for their summer vacations. As long range travel is down, there is an increase in camping, outdoor activities and local exploration... coined by some as a Staycation.

Staycation is a relatively new term but has been used more this summer because of the continued effects of Staycation. It is a vacation spent in one's home country rather than abroad, or one spent at home and involving day trips to local attractions.

Here at MRTW, we know several of your vacations have been postponed or revamped to because of the continued guidelines to stop the spread of COVID-19. With that, we wanted to share some ideas of activities close to home!

Hiking, camping picnicking and outdoor games provide some safe summer activities that are very popular in Reno and Tahoe.

For area hiking ideas, visit [alltrails.com/us/nevada/reno](https://www.alltrails.com/us/nevada/reno). And for all of you looking for camping, picnicking and outdoor games, visit [visitrenotahoe.com](https://www.visitrenotahoe.com) and follow their website for some great ideas.

And if you are planning on hitting the road, remember:

- RV is safer than your car
- Keep wipes, hand sanitizer and paper towels handy
- Wear masks if going indoors or in public areas

We hope you enjoy your summer! Stay safe and have fun!!

MAINTENANCE MATTERS

BY TERESA AQUILA, FLEET MANAGER

How do you mitigate body damage to your vehicle? I have some tips for you during this month Maintenance Matters!

Body damage is costly to the company and it is also a visual message, which can be a footprint for drivers. Have you even seen a vehicle in your travels with a lot of damage and feeling, I better steer clear of that one?

Knowing your buses dimensions is critical to an accident free commute. The low clearance, its height and will it make it under that tree?

Turning is another accident waiting to happen, do you have enough swing to clear any obstacles that may be in the way, such as parked vehicles, building, or poles. Know your route and your ability. If you think you can't make it, then you might want to rethink the maneuver.
